

NEFA Public Information Report from March 2011

We met in February prior to Area Service and we continue to need support.

We have decided that we will be combining with Outreach and are looking forward to some new things and more support.

Our probation racks are filled. We have some more schools we want to get literature into however we need some more support to make this happen. There is only so much a few members can do. Our flyers are also being posted at places we can get to. There are so many things we want to do however we need some help to do them.

Public Service announcements are in the works. We have to be patient with the local newspapers as to when they have room or us since this is a free service.

Numerous calls have been made for the Heritage fair in Dundalk and I am not getting anywhere. I am leaving lots of messages for different people and am beginning to think they are not interested in having us there. If anyone knows anyone that is involved with the fair please let me know so that I can try another way to make contact with them. We are researching other fairs, community events, etc. If you know of any in this area, let us know.

Again, Public Information needs support. Please attend our monthly meeting prior to area service every month.
