

NEFA Public Information Report
December 2009

Our committee met in November before area service.

All of the racks and places where we have literature placed are filled.

We discussed more possibly facilities to place literature.

We voted on a flyer that we will begin posting on bulletins in our area.

We went over the form that is now required by the public school system for us to place literature in the schools.

Our next meeting will be in December before area service.

We continue to be open for new members.

Thanks for allowing me to be of service,

Jenn
