NEFANA.org July 27th 2016 Report Sheet

This is copy of last year's receipt for 2 years hosting and domain support. This had the area hosted on the older less secure server till 2019. I requested that we be able to use the remainder of the 3 years we had hosted on the older classic server as store credit towards moving to a newer more secure server and cpanel account. By opting for the economy line server option we were able to use our refund credits to purchase 5 years' worth of hosting at no extra cost. The only purchase we may need to make is increased memory for the account that would cost an additional \$2 per month. The memory will make the site run more efficiently when being used by multiple visitors. The financial impact of redesign and upgrading to a new server was about \$240 savings with 5 more years hosting and domain support.
