Motion: To completely step away from the USFA + the USSC, and no longer devote any time or energy to the topic.

Intent: \_\_\_\_\_

Intent: the 1<sup>st</sup> tradition states "Our common wellfare should come first; personal recovery depends on NA unity." Not even all the areas in our region are on board to take part in this, & who knows how many other areas in the US are going to participate. The USFA + USSC will never be of any value to us and our recovery if it's not entirely united, so there is no point in any further debate about it's worth.
